

MINI-DEMINERALISER

Our customers kept asking us for a simple low cost method for producing small quantities of high purity water. This is what we came up with.

STANDARD FEATURES:

- HIGH QUALITY THREE PIECE AQUA HOUSING
- INTERNAL DIFFUSER PLATE
- RISER TUBE WITH OUTLET SCREEN
- FILLED WITH MIXED BED DEMINERALISATION RESIN

Designed for the lowest possible on-going running costs, the housing can be simply refilled with loose mixed bed resin as required.

SPECIFICATIONS:

| | |
|-----------------------|----------------------------------------------------|
| Recommended Flow Rate | Up to 2lpm |
| Pressure Rating | 800 Kpa |
| Volume | Holds 1 Litre of Mixed Bed Resin |
| Capacity | Purifies 150 Litres of Town Supply Water (typical) |
| Connections | 1/4+ Tube Connections |

APPLICATIONS:

Laboratory use, for pharmaceutical ingredients and reagents, battery filling, cosmetic manufacturing, streak free cleaning. Can be used as a water polisher after other treatment steps.

OPTIONS:

ZYIA Flowmeter with integral flow control valve. See the flow section of this catalogue.
